SECTION 11: RECOMMENDATIONS FOR PROMOTION AND/OR TENURE

Promotion reviews are based on assessments of candidates’ assigned teaching, service, research, and other duties according to benchmarks set out in department, college and University criteria. In making such assessments, reviewers should follow the policies in the University Handbook for Appointed Personnel for promotion and tenure, along with the University’s Statement on Professional Conduct in UHAP 7.01. That Statement sets out the expectation that all faculty are expected to uphold scholarly standards, maintain intellectual honesty, and “respect the dignity of others,” including their “right to express differing opinions.” If a candidate has been found to have committed research or other forms of professional misconduct, that finding may be considered in promotion reviews. Findings of professional misconduct should be assessed against how they affect candidates’ abilities to achieve the purposes of their assigned teaching, research and service duties. More information on these provisions is provided in the Guide to the Promotion Process. Questions on these procedures should be directed to Asya Roberts in the Provost’s Office at 626-0202 or asya@email.arizona.edu.
