

Section 9A: Observation Criteria for Summative Evaluation- Online Teaching

Peer Observation of Teaching is coordinated by the candidate's Department Head/Director. They will identify an observer of the appropriate rank and title and request an observation for a fully online class that has been offered in the past year. The Department Head will pass on relevant information and class materials to the observer. The instructor will grant access to their course D2L site, giving "instructor read-only" access. The observer will use this template to complete their review and submit to the Department Head/Director by the date set in order to include in the review by the Departmental Review Committee. These items are based on best practices for the design and facilitation of online courses. We recommend that reviewers cite specific evidence for all the criteria. If you have any questions about the peer observation of teaching, please contact Dr. Lisa Elfring with UCATT at elfring@arizona.edu.
