COVID-19 considerations

Starting Point For The Honest Conversation

Asking The Right Questions

TEACHING
How many course(s) were transitioned to an online mode during Spring 2020?
Was completion of online-education training or attendance at teaching meetings required?

RESEARCH
Was access to their research lab reduced or eliminated?
Was unspent start-up funding pulled to offset university finances?
Was there irreplaceable loss of research animals, subjects, supplies, field seasons, or travel?
Were invited seminars and/or conference presentations cancelled?

SERVICE
Did faculty member contribute to department or university initiatives related to COVID-19?
Did they contribute to public discussions, community engagement related to COVID-19?
Did the scope of service duties change during Spring 2020?

Evaluation Committees Should:
* Be diverse - Include women and faculty of color.
* Be informed - Understand inequality and inequity at their institutions.
* Be transparent - Detail plans to promote gender equity and race parity.
* Be proactive - Distribute a clear and documented procedure for (re)evaluation.
* Be trained - Understand how COVID-19 differentially impacts the careers of women.

(Malisch, et al., 2020)
Additional Considerations

• Most peer institutions are instituting the same type of protocol, so it will be expected and common in dossiers sent to external reviewers.

• Clock delay information is indicated on Section 2 workload

• Additional training and changes to teaching can be put in the teaching portfolio

• Positive Impacts
  • Creativity/good outcomes of teaching
  • Indicate if Service activities are COVID-19 related
  • Provide examples of publicly significant contributions
Pandemic Context

- Additional stress, frustration, anxiety and even burnout
- Increased workload
  - Remote learning pivot and student safety
- Deterioration of work-life balance
- Fewer uninterrupted blocks of time
- Grief, loss, loneliness, illness, death
- Teaching Challenges and Additional Service
  - Extraordinary support for students and colleagues
- Research Challenges
  - Access to lab, access to human participants, slow down in lab activities or materials, loss of grad students, Loss of funding
Systemic Barriers

- Systemic influences affected the work experiences of women and BIPOC individuals during the pandemic.
- Caregiving has been a very prominent issue.
  - Concerns about underreporting in COVID19 statements
